CENTRAL CYBER FORENSICS LABORATORY (CCFL)
DIGITAL EVIDENCE EXTRACTION & SERVER AUDIT REPORT
Report ID: CCFL-DEL-2026-8812
Subject: Connaught Bank Core Infrastructure Intrusion
Target Vault: Vault Room B Cryptographic HSM
Date of Examination: October 22, 2026 at 06:00 PM
Chief Examiner: Dr. Ananya Sen, Principal Forensic Specialist

EXECUTIVE SUMMARY:
On October 21, 2026 at 11:40 PM, the multi-factor authentication lock guarding Vault Room B was compromised.
The intruder authenticated directly from the local physical maintenance console located inside Connaught Bank.

CRITICAL DIGITAL ARTIFACTS:
1. Authentication Token: Account credentials belonging to Vikram Malhotra (Employee ID: VM-8821) were utilized to authorize the vault door override.
2. Cryptographic Key Transfer: At 11:42 PM, master decryption keys for Apex Global Securities bearer assets were copied onto an unencrypted SanDisk USB drive.
3. Access Point: The physical terminal located 5 meters outside Vault Room B was accessed with biometric fingerprint validation of Vikram Malhotra.
4. Telecommunication Tower Dump: Cell phone number +91-98110-44219 assigned to Vikram Malhotra was registered pinging the Barakhamba Road cellular cell tower from 10:50 PM on October 21, 2026 until 12:05 AM on October 22, 2026, completely disproving his presence at Hotel Oberoi during the robbery.

CONCLUSION:
The digital evidence incontrovertibly establishes that Vikram Malhotra was physically present inside Connaught Bank on October 21, 2026 during the vault penetration.
